

CORE MORINGA® TRIOTIC™

G.I. & IMMUNE SUPPORT

Zija's Core Moringa® Triotic™ contains a proprietary blend of three robust bacterium strains known as probiotics—often referred to as friendly bacteria. These friendly bacteria are live microorganisms that have a unique role in helping our digestive system perform optimally and allow us to better absorb nutrients. Triotic's probiotic strains have super adhesion properties, which can survive the harsh conditions that exist in our digestive tract. This allows the product to reach the upper and lower intestines, offering gastrointestinal support from start to finish.

KEY BENEFITS

- Supports gastrointestinal health
- Aids in normal immune defense
- Formulated for adults and children
- Easy-to-consume with oral rapid-melt technology
- Contains three clinically studied probiotic strains
- Use daily for optimal wellness

KEY INGREDIENTS

- Bifidobacterium animalis ssp. Lactis BIFOLAC™ 12: Clinical research indicates that use of the Bifidobacterium animalis ssp. Lactis bacterium strain can support normal immune defense.
- Lactobacillus acidophilus BIFOLAC™ 5: Clinical studies reveal use of this probiotic strain aids in normal nutrient absorption.
- Lactobacillus rhamnosus BIFOLAC™ PB01: Multiple studies on Lactobacillus rhamnosus reveal normal support of gastrointestinal health and fat storage prevention.

DID YOU KNOW?

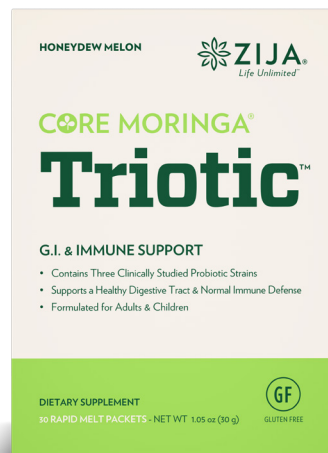

- There are 300+ scientific publications of Bifidobacterium animalis ssp. Lactis, making it one of the most researched probiotic strains.
- Microbiota plays a crucial role in the maintenance of a well-functioning immune system; consumption of probiotics helps replenish and adds to the gut's microbiota.
- In healthy adults, the gastrointestinal tract contains 10 times as many bacteria as eukaryotic cells in the entire body.
- Core Moringa Triotic has a delicious, natural honeydew melon flavor that both adults and children will enjoy.
